

PRODUCT OVERVIEW

X PRO Ultra is a high-performance Paint Protection Film (PPF) engineered with advanced features include self-healing performance, high-gloss clarity, excellent weather resistance, and strong adhesive performance to provide a durable and long-lasting protective layer for automotive painted surfaces against everyday road hazards and environmental exposure.

X PRO Ultra helps protect the vehicle's original paint from stone chips, light scratches, road debris, stains, and other external contaminants while maintaining its original appearance and finish.

PRODUCT CONSTRUCTION

CLEARCOAT: 0.4 mil

POLYURETHANE: 6.4 mil

ACRYLIC ADHESIVE: 1.4 mil

POLYESTER RELEASE LINER: 3.0 mil

RECOMMENDED APPLICATION

Partial Hood and Fender

Bumper

Mirrors

Rocker Panels

Trunk Ledge

Door Edge

Rear Quarter Panel

Hood

Roof

PHYSICAL PROPERTIES

PROPERTY	VALUE / METHOD
Product thickness	7.8 mil
Tensile Strength	6500 psi (D638-10)
Elongation	300% (D638-10)
Tear strength	565 pli (D624)
Peel Adhesion	72 oz/in (D3330)
Weathering	Not detrimental effect
Heat aging	Not detrimental effect
Chemical resistance	Good resistance
